FORWARD LOOKING STATEMENTS

This presentation includes “forward-looking statements” as defined by the Securities and Exchange Commission, or SEC. We make these forward-looking statements in reliance on the safe harbor protections provided under the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, included in this presentation that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements. This includes, without limitations, our 2017 earnings guidance. These forward-looking statements are based on assumptions which we believe are reasonable based on current expectations and projections about future events and industry conditions and trends affecting our business. However, whether actual results and developments will conform to our expectations and predictions is subject to a number of risks and uncertainties that, among other things, could cause actual results to differ materially from those contained in the forward-looking statements, including without limitation, the risk factors described in Item 1A of Part I of our 2016 Annual Report on Form 10-K and other reports that we file with the SEC from time to time, and the following:

- The accuracy of our assumptions on which our earnings guidance is based;
- Our ability to obtain adequate cost recovery for our utility operations through regulatory proceedings and favorable rulings in periodic applications to recover costs for capital additions, plant retirements and decommissioning, fuel, transmission, purchased power and other operating costs, and the timing in which new rates would go into effect;
- Our ability to complete our capital program in a cost-effective and timely manner;
- The impact of future governmental regulation and tax reform;
- The impact of the volatility and extent of changes in commodity prices on our earnings and the underlying value of our oil and gas assets, including the possibility that we may be required to take additional impairment charges, including those required under the SEC’s full cost ceiling test for natural gas and oil reserves; and
- Other factors discussed from time to time in our filings with the SEC.

New factors that could cause actual results to differ materially from those described in forward-looking statements emerge from time-to-time, and it is not possible for us to predict all such factors, or the extent to which any such factor or combination of factors may cause actual results to differ from those contained in any forward-looking statement. We assume no obligation to update publicly any such forward-looking statements, whether as a result of new information, future events or otherwise.

Investment Highlights

- Customer-focused, growth oriented utility company
- Committed to continuing strong earnings growth
- 47 consecutive annual dividend increases with solid yield
- Committed to maintaining strong investment grade credit ratings
- Disciplined approach to acquisitions creates additional growth opportunities

Company Overview

The Pueblo Airport Generating Station, with its highly efficient, gas turbine generators, provides 420-megawatts of safe, reliable energy for our customers in southern Colorado.

Black Hills Corporation Today

- Legacy company started serving electric customers in Deadwood, South Dakota, in 1883
- Black Hills Power & Light incorporated 1941
- BHC listed on NYSE in 1980 under symbol BKH
- Market capitalization of approximately \$3.7 billion as of Aug. 11, 2017

Period	Stock Price*	Annual Total Return**
8-11-17	\$69.52	
1 Year	\$57.69	20.5%
3 Year	\$47.74	13.4%
10 Year	\$27.40	9.8%
20 Year	\$8.07	11.3%

- Approximately 53.5 million shares outstanding
- Average daily trading volume of approximately 347,000 shares for trailing twelve months as of Aug. 11, 2017
- 47 consecutive years of annual dividend increases

Overview

We are a **customer focused, growth-oriented utility company** with a tradition of exemplary service and a vision to be the energy partner of choice. Based in Rapid City, South Dakota, the company serves over **1.2 million electric and natural gas utility customers in nearly 800 communities** in Arkansas, Colorado, Iowa, Kansas, Montana, Nebraska, South Dakota and Wyoming. The company generates wholesale electricity and produces natural gas, crude oil and coal. Employees partner to produce results that improve our customers' lives with energy.

- Natural Gas Utilities
- Power Generation
- Coal Mine
- Company Headquarters
- Corporate Office

2017 Recent Highlights

Utilities

- On July 19, Wyoming Electric set new all-time peak load of 249 megawatts surpassing previous peak load of 236 megawatts in July 2016
- On June 23, Colorado Electric issued a request for proposals for additional 60 megawatts of renewable energy resources to be in service by 2019 to meet state's renewable energy requirements; bids due Aug. 4 and plan to present results to Colorado Public Utilities Commission by year-end for approval
- South Dakota Electric entered an agreement with South Dakota Public Utilities Commission staff, which the commission approved on June 16, to stabilize rates for customers through a six-year base rate moratorium effective July 1, 2017, through July 1, 2023
- On May 30, South Dakota Electric completed construction and placed in service the final segment of a 144-mile electric transmission line from northeastern Wyoming to Rapid City, South Dakota

Oil and Gas

- As of Aug. 5, Black Hills sold its interests in 34 gross wells (7.9 net wells) for total proceeds of \$0.5 million; since the beginning of 2016, Black Hills has sold 58 percent of its non-core gross wells and is targeting divestiture of its remaining non-core wells by year-end

2017 Recent Highlights

Corporate Activities

- On Aug. 4, Black Hills filed a new universal shelf registration statement with the Securities and Exchange Commission; concurrently, renewed the At-the-Market equity offering program
- On July 26, Black Hills' board of directors declared quarterly dividend of \$0.445 per share, equivalent to an annual dividend rate of \$1.78 per share
- On July 21, S&P Global Ratings affirmed its credit rating of Black Hills Corp. at BBB with a stable outlook
- Black Hills recently utilized favorable short-term rates on its commercial paper program to repay \$100 million of corporate term loan borrowings due in 2019, with principal payments of \$50 million paid in May and an additional \$50 million paid in July
- On April 1, Robert Myers, senior vice president and chief human resources officer, retired; effective Feb. 1, Jennifer Landis was appointed senior vice president and chief human resources officer

Strategic Overview

A photograph of three wind turbines on a hill at sunset. The sky is filled with golden light and clouds, and the sun is setting behind a range of mountains in the distance. The foreground shows a dark, silhouetted hillside with sparse vegetation.

Our southern Colorado grid is one of the newest and cleanest in the nation, fueled entirely by natural gas and renewable energy. Our renewable energy portfolio will provide significant benefits to southern Colorado communities and Black Hills customers for years to come.

Strategic Objectives

Utility-centered energy company well positioned to build upon a track record of successful utility growth

PROFITABLE GROWTH

Achieve consistent growth that creates value.

EARNINGS: Lead industry peers in earnings growth

DIVIDEND: Increase annual dividend, extending industry-leading dividend history

CREDIT RATING: Maintain solid investment-grade senior unsecured credit rating

BUSINESS DEVELOPMENT: Grow our core energy businesses through investments in organic business expansions and acquisitions that exceed our established hurdle rates and are accretive to earnings

VALUED SERVICE

Deliver reliable, highly valued products and services.

CUSTOMER: Provide quality products and services that cost effectively meet or exceed customer expectations with increased use of technology; effectively market these products and services to customers; and, share information to create understanding of energy-related issues

COMMUNITIES: Be a partner in growing the economies of the communities we serve

BETTER EVERY DAY

Continuously improve to achieve industry leading results.

OPERATIONAL PERFORMANCE: Achieve top-tier operational performance in a culture of continuous improvement

EFFICIENCY: Continuously engage employees to identify and pursue efficiencies, and to simplify or eliminate unnecessary processes. Sustain annual improvements to metrics comparing costs as a percent of gross margin

EFFECTIVENESS: Identify the right projects and tools that allow employees to work effectively every day

MEASUREMENT: Benchmark our costs and processes with meaningful metrics to assist with real-time business management assessment of results and accountability

GREAT WORKPLACE

Promote a workplace that inspires individual growth and pride in what we do.

ENGAGEMENT: Achieve status as one of the “100 Great Places to Work” as measured by the Great Places to Work Institute

DIVERSITY: Increase workforce diversity to achieve improved performance and the innovations that come from inclusiveness

EMPLOYEE DEVELOPMENT: Establish robust development options enabling increased performance while preparing employees for additional career opportunities

TEAM WORK: Maintain top quartile results within a professional, and productive work environment

SAFETY: Strive to be the safest energy company in the U.S. by emphasizing our culture to work and live safely every day

Earnings Growth Strategy

Near-Term

- Improve efficiency and manage costs through best practices, standardization and continuous improvement
- Focus capital spending to reduce or eliminate regulatory lag
 - Prioritize safe and reliable service to customers
 - Focus on prudent utility investments that generate timely and fair returns

Long-Term

- Invest for safe and reliable service to customers
- Aggressively pursue additional utility growth opportunities
 - Power generation and electric transmission
 - Gas pipelines, gas storage, propane and diesel to natural gas conversions
 - New customer connections
- When appropriate, file rate review requests to ensure fair investment returns
- Continue to pursue additional small and large utility acquisitions

Regulatory Update

Colorado Electric - Rate Case Review

- On June 9, the Colorado Public Utilities Commission denied Colorado Electric's request for rehearing, rearguing, and reconsideration of its decision to increase annual revenues by \$1.2 million for 40-megawatt natural gas-fired turbine
 - The \$1.2 million revenue increase is in addition to \$5.9 million ongoing annual revenue previously approved through the construction financing rider
- On July 10, Colorado Electric filed appeal with Denver District Court
 - Briefing schedule runs through November 2017

South Dakota Electric – Settlement Update

- South Dakota Electric entered an agreement with the South Dakota Public Utilities Commission staff, which the commission approved on June 16, to stabilize rates for customers through a six-year base rate moratorium effective July 1, 2017, through July 1, 2023

Colorado Electric Resource Plan

- On June 3, 2016, filed electric resource plan with commission to meet Colorado Renewable Energy Standard requirements
 - 20 percent of retail sales requirement increases to 30 percent by 2020
- Entered settlement agreement specifying the addition of approximately 60 megawatts of renewable energy resources to be in service by 2019
 - Settlement also provides for additional small solar and community solar gardens as part of compliance plan
- On Jan. 17, Colorado administrative law judge issued order approving settlement agreement effective Feb. 6
- On June 23, issued request for proposals with bids due Aug. 4
- Plan to present results to Colorado Public Utilities Commission by year-end for approval

Utility Growth Opportunity - COSG

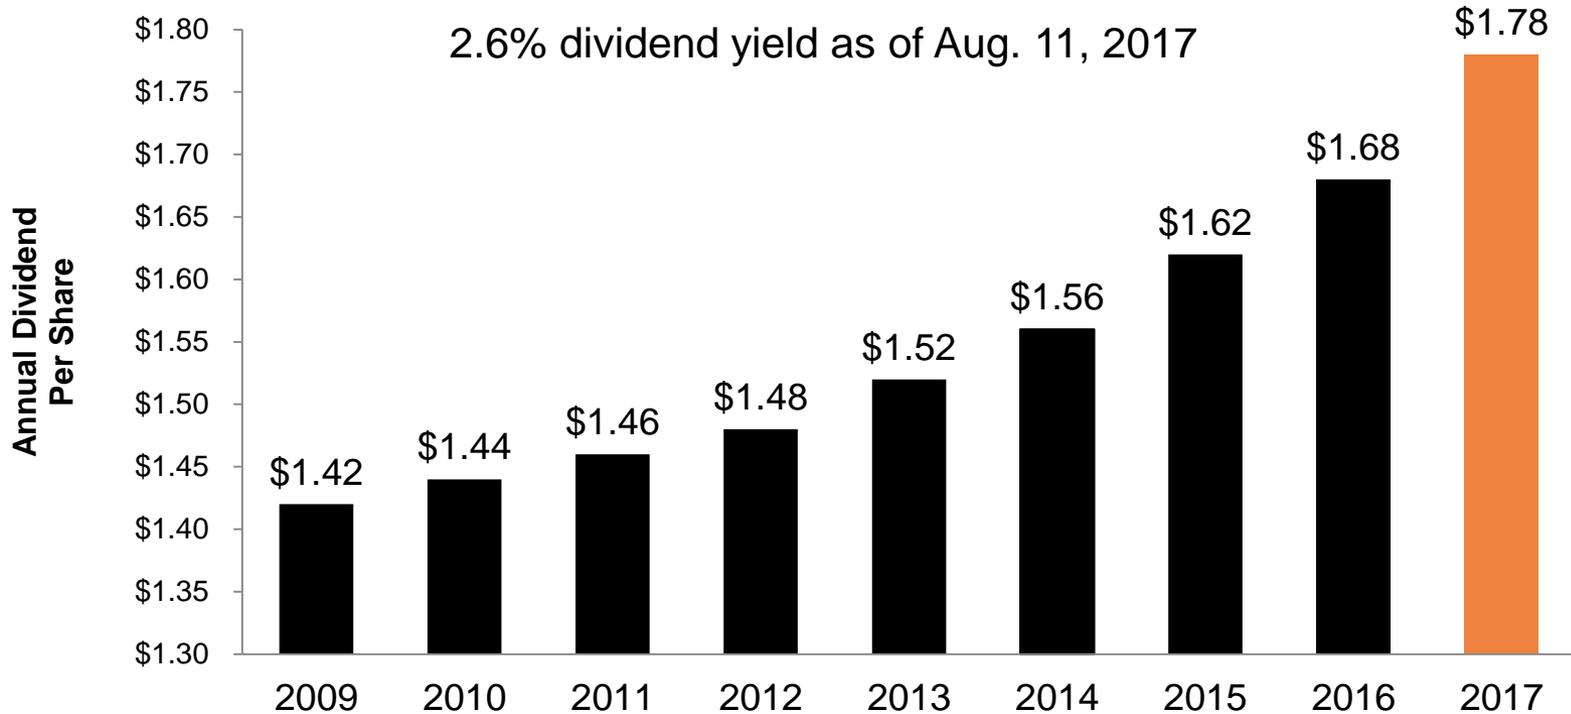

Cost of service gas program – potential for direct investment in natural gas reserves provides long-term price stability and a reasonable expectation of long-term lower costs for customers, while providing opportunities for increased earnings

- Sustained low natural gas price environment has increased difficulty of obtaining regulatory approvals
- Evaluating options on how best to proceed; likely will not file for approval of cost of service gas program prior to year-end

Dividend Growth

Dividend Increased for 47 Consecutive Years

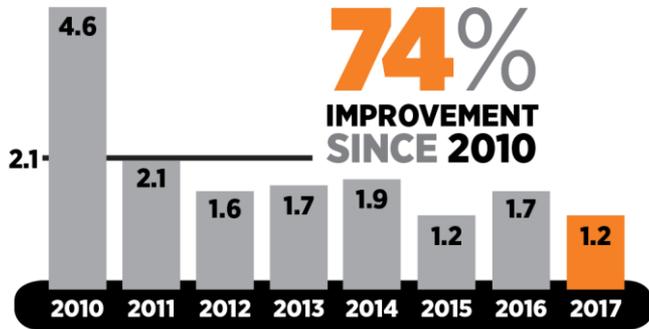

* Board of Directors on July 26 declared quarterly dividend of \$0.445 per share, equivalent to an annual rate of \$1.78 per share

Operational Excellence

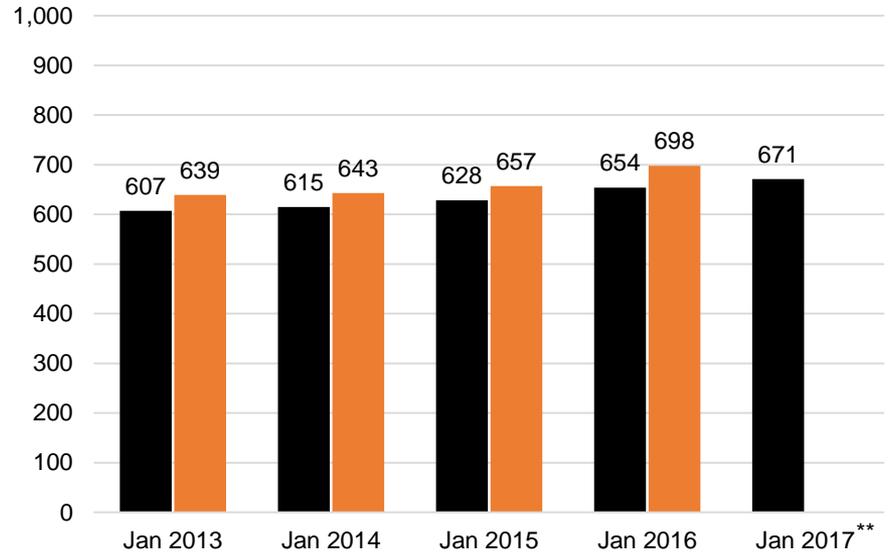

Safety Performance

Total Case Incident Rate

2017 data is YTD through June 30 (Black Hills and Legacy SourceGas combined). TCIR is defined as the average number of work-related injuries incurred by 100 workers during a one-year period.

Overall Customer Satisfaction Index*

■ JD Power Electric Residential ■ JD Power Gas Residential

* Trailing 12 month period

** Gas Residential customer scores for 2017 will be available in September

Governor's Safety Award – Wyodak Mine

For the seventh straight year, our Wyodak Mine has operated with a perfect safety record of no lost-time accidents, an industry achievement recognized by the Wyoming mine inspector.

And, for the fourth consecutive year, our Wyodak Mine employees have been awarded the Governor's Workplace Safety Award, presented last month by Wyoming Gov. Matt Mead at the annual Wyoming Safety & Workforce Summit in Cheyenne.

Financial Update

We are proud to serve southern Colorado with safe, reliable energy services and work hard to be engaged, responsible community partners. Pictured from left, Tom Cruz and Ray Loya, line servicemen for our Colorado electric utility.

Outlook	<i>Stable</i>	<i>Stable</i>	<i>Stable</i>

2017 Earnings Guidance Updated*

Black Hills narrowed its guidance for 2017 earnings, as adjusted, to \$3.45 to \$3.60 from \$3.45 to \$3.65 per share due primarily to unfavorable weather in first half of 2017 and additional diluted shares from equity units issued in November 2015

The updated guidance range is based on the following assumptions:

- Capital spending of \$350 million;
- Normal operations and weather conditions for second half of 2017;
- No significant unplanned outages at any of our power generation facilities;
- Limited equity financing under our At-the-Market equity offering program and approximately \$3 million from the dividend reinvestment program;
- No significant acquisitions or divestitures; and
- Oil and gas segment loss of \$(0.10) to \$(0.15) per share, excluding potential non-cash asset impairments

* Earnings, as adjusted is a non-GAAP measure; reconciled to GAAP in Appendix

Non-GAAP Financial Measures

Electric and Gas Utilities

Electric Utilities*

- Operates three electric utilities doing business as Black Hills Energy in CO, SD, WY and MT
- Generates, transmits and distributes electricity to approximately 208,500 customers
- Includes 941 MW of generation and 8,806 miles of transmission and distribution lines
- East-West interconnection located near Rapid City, SD optimizes the off-system sale of power and improves system reliability (1 of only 7 east-west ties)

Natural Gas Utilities*

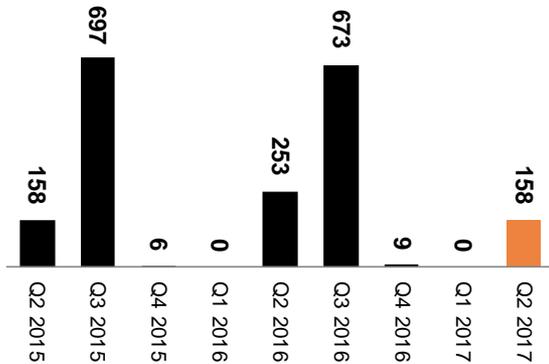

- Operates seven natural gas utilities doing business as Black Hills Energy in AR, CO, IA, KS, NE and WY
- Distributes natural gas to approximately 1,030,800 customers
- Includes 4,585 miles of intrastate gas transmission pipelines and 40,044 miles of gas distribution mains and service lines
- Operates seven storage facilities in AR, CO and WY with 17.4 Bcf of underground gas storage working capacity
- Provides contract appliance repair service to approximately 61,000 customers through Service Guard Program in CO, IA, KS and NE

1 Refers to Cheyenne Light only

2 Rocky Mountain Natural Gas, an intrastate natural gas pipeline

3 Includes first tier of consumption in block rates

Other Business Segments

Power Generation*

- Owns interests in two power generation facilities
 - Wygen I - 69 MW of a 90 MW coal-fired facility in Gillette, WY
 - Pueblo Airport – 50.1 percent ownership interest in Colorado IPP which owns the 200-MW, natural gas-fired facility in Pueblo, CO (co-located with regulated utility facility)**
- Sells nearly all plant capacity and energy under long-term contracts to utility affiliates

Mining*

- Coal Mine serves as fuel supply to adjacent mine mouth electric power generation customers
- Includes approximately 52-year supply of low-sulfur Powder River Basin coal reserves at expected production levels
- About 50 percent of production sold under contracts that include price adjustments based on actual mining costs

Oil and Gas

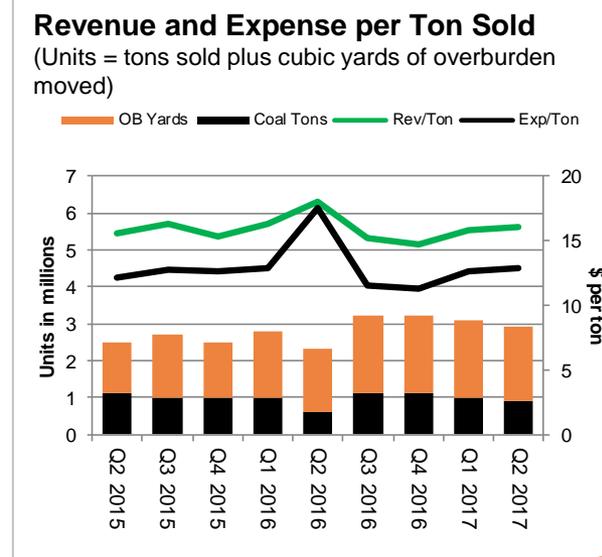

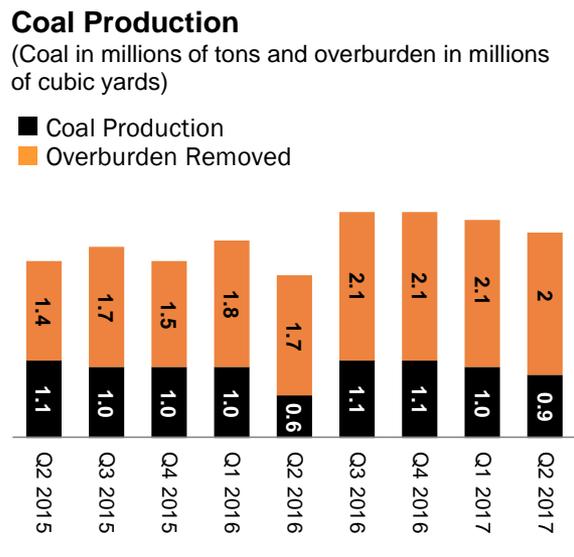

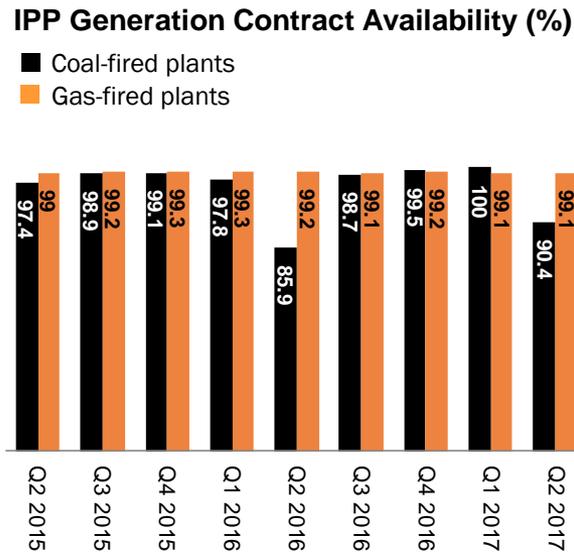

- Divesting assets not suitable for possible future cost of service gas program
- Evaluating options on how best to proceed with cost of service gas program; likely will not file for approval prior to year-end
- Piceance Mancos shale gas opportunity of approximately 94,000 acres^ offers upside

* Information from 2016 Form 10-K, unless otherwise noted

** Black Hills sold a 49.9 percent ownership interest in Colorado IPP on April 14, 2016

^ Oil and Gas acreage as of March 31, 2017

Power Generation and Mining

Coal Contracts Summary

- Approximately 50% of coal production sold under contracts that include price adjustments based on actual mining costs plus a return on mine capital investments
- Most of the remaining 50% of coal production sold under contracts where sales price changes are based on published indices but may lag actual mining costs

Plant/Owner	Production Tons (millions) 2017	Pricing Methodology	Date Price Reopener or Adjustment	Contract Expires	Contract Quantity

Use of Non-GAAP Financial Measures

Gross Margin

Our financial information includes the financial measure Gross Margin, which is considered a “non-GAAP financial measure.” Generally, a non-GAAP financial measure is a numerical measure of a company’s financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP. Gross Margin (Revenues less Cost of Sales) is a non-GAAP financial measure due to the exclusion of depreciation from the measure. The presentation of Gross Margin is intended to supplement investors’ understanding of our operating performance.

Gross Margin is calculated as operating revenue less cost of fuel, purchased power and cost of gas sold. Our Gross Margin is impacted by the fluctuations in power purchases and natural gas and other fuel supply costs. However, while these fluctuating costs impact Gross Margin as a percentage of revenue, they only impact total Gross Margin if the costs cannot be passed through to our customers.

Our Gross Margin measure may not be comparable to other companies’ Gross Margin measure. Furthermore, this measure is not intended to replace operating income as determined in accordance with GAAP as an indicator of operating performance.

EBITDA and EBITDA, as adjusted

We believe that our presentation of earnings before interest, income taxes, depreciation and amortization (EBITDA) and EBITDA, as adjusted (EBITDA adjusted for special items as defined by management), both non-GAAP measures, are important supplemental measures of operating performance. We believe EBITDA and EBITDA, as adjusted, when considered with measures calculated in accordance with GAAP, give investors a more complete understanding of operating results before the impact of investing and financing transactions and income taxes. We have chosen to provide this information to investors to enable them to perform more meaningful comparisons of past and present operating results and as a means to evaluate the results of core on-going operations.

Our presentation of EBITDA may be different from the presentation used by other companies and, therefore, comparability may be limited. Depreciation and amortization expense, interest expense, income taxes and other items have been and will be incurred and are not reflected in the presentation of EBITDA. Each of these items should also be considered in the overall evaluation of our results. Additionally, EBITDA does not consider capital expenditures and other investing activities and should not be considered a measure of our liquidity. We compensate for these limitations by providing relevant disclosure of our depreciation and amortization, interest and income taxes, capital expenditures and other items both in our reconciliation to the GAAP financial measures and in our consolidated financial statements, all of which should be considered when evaluating our performance.

Note: continued on next page

Use of Non-GAAP Financial Measures

Segment Revenue, Operating Income, Net Income Available for Common Stock and EPS, as adjusted

We have provided non-GAAP earnings data reflecting adjustments for special items as specified in the GAAP to non-GAAP adjustment reconciliation table in this presentation. Segment Revenue, as adjusted, Operating Income (loss), as adjusted, Income (loss) from continuing operations, as adjusted, and Net income (loss), as adjusted, are defined as Segment Revenue, Operating Income (loss), Income (loss) from continuing operations and Net income (loss), adjusted for expenses, gains and losses that the company believes do not reflect the company's core operating performance. The company believes that non-GAAP financial measures are useful to investors because the items excluded are not indicative of the company's continuing operating results. The company's management uses these non-GAAP financial measures as an indicator for evaluating current periods and planning and forecasting future periods.

Earnings per share, as adjusted

Earnings per share, as adjusted, is a Non-GAAP financial measure. Earnings per share, as adjusted, is defined as GAAP Earnings per share, adjusted for expenses, gains and losses that the Company believes do not reflect the Company's core operating performance. Examples of these types of adjustments may include unique one-time non-budgeted events, impairment of assets, acquisition and disposition costs, and other adjustments noted in the earnings reconciliation tables in this presentation. The Company is not able to provide a forward-looking quantitative GAAP to Non-GAAP reconciliation for this financial measure because we do not know the unplanned or unique events that may occur later during the year.

Depreciation, Depletion and Amortization, as adjusted

Depreciation, Depletion and Amortization (DD&A), as adjusted are defined as DD&A by segment adjusted for additional depreciation expense at our Utilities Group and reduced depreciation at our Non-regulated Group. We have provided this non-GAAP measure to reflect adjustments by Business Group for the requirement under GAAP that the power purchase agreement between Colorado Electric and Colorado IPP be accounted for as a capital lease. The company believes that non-GAAP measures are useful to investors because the lease accounting is not indicative of our rate recovery accounting. The company's management uses these non-GAAP financial measures as an indicator for evaluating current periods and planning and forecasting future periods.

Limitations on the Use of Non-GAAP Measures

Non-GAAP measures have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of our results as reported under GAAP. Our presentation of these non-GAAP financial measures should not be construed as an inference that our future results will not be affected by unusual, non-routine, or non-recurring items.

Non-GAAP measures should be used in addition to and in conjunction with results presented in accordance with GAAP. Non-GAAP measures should not be considered as an alternative to net income, operating income or any other operating performance measure prescribed by GAAP, nor should these measures be relied upon to the exclusion of GAAP financial measures. Our non-GAAP measures reflect an additional way of viewing our operations that we believe, when viewed with our GAAP results and the reconciliation to the corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. Management strongly encourages investors to review our financial information in its entirety and not rely on a single financial measure.

Adjustments*, pre-tax:		
Acquisition costs	0.03	0.03
Tax on Adjustments*:		
Acquisition costs	(0.01)	(0.01)
Earnings (loss), as adjusted, per share (Non-GAAP)	\$ 3.45	\$ 3.60

* Additional adjustments will likely occur in the third and fourth quarters. Adjustments shown reflect the actual adjustments made for the first six months of the year.

VISION

Be the Energy Partner of Choice.

MISSION

Improving Life with Energy.

COMPANY VALUES

Agility

We embrace change and challenge ourselves to adapt quickly to opportunities.

Customer Service

We are committed to providing a superior customer experience every day.

Partnership

Our partnerships with shareholders, communities, regulators, customers and each other make us all stronger.

Communication

Consistent, open and timely communication keeps us focused on our strategy and goals.

Integrity

We hold ourselves to the highest standards based on a foundation of unquestionable ethics.

Respect

We respect each other. Our unique talents and diversity anchor a culture of success.

Creating Value

We are committed to creating exceptional value for our shareholders, employees, customers and the communities we serve...always.

Leadership

Leadership is an attitude. Everyone must demonstrate the care and initiative to do things right.

Safety

We commit to live and work safely every day.
